Questions? The school is your primary contact regarding the GRACE application and award process.

Note 1: FACTS Grant and Aid or other designated outside financial aid company is an objective third party view on each family's need. Based on the financial information you provide in your application, FACTS gives the school an estimated amount your family can contribute to educational expenses. This estimate is a starting point to help school officials make fair and objective financial aid decisions.

Note 2: Complete financial aid applications submitted by the deadline will be reviewed first and in equal standing for available funds if financial need is demonstrated. Applications submitted after the deadline will be reviewed in the order received and may be subject to the availability of funds at that time. Each year, requests for financial assistance exceed the funding available. Therefore, it is necessary to establish policies and procedures. Parents and schools must adhere to deadlines for consistency and fairness.
